Company Remote & Hybrid Work Guidelines

1. Remote Work Policy Statement

CORE Technologies supports hybrid work options to enhance employee satisfaction and productivity. This policy defines the guidelines, equipment provisions, and performance expectations for home-based work.

2. Core Working Hours and Communication

Hybrid and remote employees must remain contactable during CORE working hours (9:00 AM to 5:00 PM EST). Slack is the primary channel for daily team updates. Employees should update their status to reflect availability.

3. Remote Home Office Allowance

All full-time employees working remotely at least 2 days per week are eligible for a one-time remote workspace allowance of up to $500. This allowance covers:

- Ergonomic office chairs

- Computer monitors or secondary displays

- Keyboards, mice, and desk lamps

All purchases must be pre-approved by the IT department and submitted through the standard expense reimbursement channel.
